

Stargazers Homework

Spring 2 Year 5

Throughout this half term our learning project is called Stargazers. Below are nine different homework activities related to our topic for you to complete. From the nine, we would expect **six** of these tasks to be completed by the end of this half term. It is up to you which six you choose and also how often you hand a piece of work in. Homework should be of the same standard we expect you to produce in school — if you need any equipment please ask. (However, you can complete more than five if you would like.) You will continue to receive your spellings, reading and times tables.

<p>Task 1 Keep a moon diary over a month — draw the shape of the moon each night. Find out the correct term for each lunar phase (phase of the moon) and draw it.</p>	<p>Task 2 Design you own space helmet or alien headgear. You could even make it out of junk materials or paper mache</p>	<p>Task 3 Create a cartoon strip (minimum 6 pictures) about an alien coming to earth or an earthling going to another alien planet.</p>
<p>Task 4 Find out the names of some of the constellations. Try to spot them in the night sky on a clear night. Draw them carefully and label them.</p>	<p>Task 5 Design your own planet. Would you have rings or a moon/ moons. What colour or pattern would it have. Would life be able to survive on it?</p>	<p>Task 6 Watch a space themed film or read a space themed book and write a review about it. How many stars would you give it?</p>
<p>Task 7 Create a space scrap book or collage.</p>	<p>Task 8 Find out the names of all the astronauts that have visited the moon. Write down interesting facts about them and the dates they visited.</p>	<p>Task 9 Draw or make a model of the solar system— show all the planets in order.</p>
