

Alchemy Island and Tomorrow's world. Summer 1st

Throughout this half term, our learning project is Alchemy Island and Tomorrow's world. Below are nine different homework activities related to our topic for you to complete. From the nine, we would expect six of these tasks to be completed by the end of this half term. It is up to you which you choose and also how often you hand a piece of work in. Homework should be of the same standard we expect you to produce in school—if you need any equipment please ask. (However, you can complete more than six, if you would like.) You will continue to receive your spellings, reading, times tables, English and Maths homework. Also, over the Easter holidays, remember to complete your 10-4-10.

How many synonyms can you find for the word 'portal.'	Watch films that show portals to other worlds. Write a review.	Find out the atomic numbers for metals such as: lead, copper, silver, and aluminium
Design a costume and travel kit for an alchemist.	Make a gem stone.	Write a diary entry using only emoticons with a key.
Write a biography about a significant figure in the computing world.	Design an avatar of yourself or a family member.	Make a list of all the computerised and robotic devices in your home.
