

Nursery Summer 1

Are eggs alive?

This term our new topic is called, Are eggs alive?

We will be finding out which kind of animals live on a farm, learning the names of baby animals and finding out whether or not we can regrow vegetables. We will also be learning about the lifecycles of frogs and chickens by investigating frogspawn and watching chicks hatch from their eggs. Of course, we will also have an exciting visit to Manor Park Farm!

You can help at home by talking about your favourite farm animals, using eggs in cooking and baking, reading farmyard stories and looking at non-fiction animal/farm books together.
